## EDUCATION

### National Institute of Technology

*Masters in Computational and Data Sciences*

Surathkal, Karnataka

*Aug 2025 – Present*

### Sri Sairam College of Engineering

*Bachelors in Computer Science and Engineering*

Bangalore, Karnataka

*Aug. 2019 – June 2023*

### D.A.V. Public School

*Higher Secondary Education*

Bilaspur, Chhattisgarh

*Apr 2016 – May 2018*

## EXPERIENCE

### Software Engineer

*Tata Consultancy Services*

Bangalore, Karnataka

*Aug 2023 – Sept 2025*

- Architected and maintained Pega BPM workflows alongside UiPath RPA solutions to automate complex financial operations, significantly reducing manual intervention and increasing operational efficiency.
- Queried DB2 for data extraction, validation, and reporting.
- Explored Generative AI platforms/tools like Kore.ai and Search.ai.

### Front-End Web Development Intern

*SuperBolter*

Bangalore, Karnataka

*Dec. 2021 – Apr 2022*

- Modern Frontend Development: Engineered responsive, user-centric interfaces by leveraging React.js hooks and functional components to build modular, scalable UI systems within fast-paced Agile environments.

## PROJECTS

### Automated Resume Screening | *Python, Machine Learning, NLP, LLM*

- An NLP-powered recruitment automation system that utilizes Transformer-based model (S-BERT) for semantic resume screening, skill extraction, and automated skill gap analysis along with reason generation.

### Deep-Trace BPM | *Python, Pytorch, Machine Learning*

- An advanced predictive process mining framework using Attention-based LSTM networks to predict next activities and cycle times in business processes using XES event logs.

### Eco Retail Platform | *Python, Flask, Machine Learning*

- Leveraged predictive modeling to transform retail transaction data into actionable insights, streamlining supply chain efficiency and aligning business operations with sustainability goals.

## ACHIEVEMENTS

1. **Core Placement Coordinator** , Ex Internship Coordinator: NITK Surathkal
2. **Best Outgoing Student** of the Year Awarded by PegaSystems: SSCE Bangalore
3. **Employee of the Month** Award: TCS Bangalore

## TECHNICAL SKILLS

**Languages:** Python, SQL, JavaScript, HTML/CSS

**Core:** DSA, ML, Generative AI (Search.ai), Responsive AI (Kore.ai), PEGA, UiPath

**Frameworks:** React, Node.js, Flask, Pytorch

**Developer Tools:** Git, Jupyter, VS Code, Visual Studio, Postman

**Libraries:** pandas, NumPy, Matplotlib, Scikit-learn

## CERTIFICATIONS

**Computing in Python:** Control Structures by EDX

**Introduction to Web Development:** Programming using HTML and CSS by Microsoft Technology Associate

**Pega BPM Certified:** System and Senior System Architect

**UiPath Robotics Process Automation:** Certified in RPA and Development in UiPath

**Generative AI Certifications:** in Kore.ai and Search.ai tools/platforms
